Cautionary Note Regarding Forward-Looking Statements

This presentation contains forward-looking statements within the meaning of federal and state securities laws, including, without limitation, our expectations, forecasts, plans and opinions regarding our strategic plans; market opportunities; economic and industry trends; commercial agreements; product development initiatives; expected revenue performance, growth areas and adjusted EBITDA margin for 2024; and ongoing and planned expense reductions. These statements involve risks and uncertainties that could cause actual events to differ materially from expectations, including, but not limited to, changes in our business, customer relationships or product plans, external market conditions, and our ability to achieve our expected strategic, financial and operational plans. For additional discussion of risks and uncertainties that could cause actual results to differ from expectations, please refer to our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, and other filings we make from time to time with the U.S. Securities and Exchange Commission (the "SEC"), which are available on the SEC's website (www.sec.gov).

Investors are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date such statements are made. Except as required by applicable law, Comscore does not intend or undertake, and expressly disclaims, any duty or obligation to publicly update or otherwise revise any forward-looking statements to reflect events, circumstances or new information after the date of this presentation, or to reflect the occurrence of unanticipated events.

This presentation contains information regarding adjusted EBITDA, adjusted EBITDA margin and FX adjusted EBITDA, which are non-GAAP financial measures used by our management to understand and evaluate our core operating performance and trends. Our use of these non-GAAP financial measures has limitations, and investors should not consider these measures in isolation or as a substitute for analysis of our results as reported under GAAP. Please see the appendix to this presentation for further explanation and reconciliations of these non-GAAP financial measures to their most directly comparable GAAP financial measures, net income (loss) and net income (loss) margin.
2023 Performance

Revenue
- Double digit Local TV growth
- Proximic & CCR growth continues
- Custom & National Linear revenue down

The Path to Growth
As complexity increases, so do costs and waste in advertising.
Connecting audiences across all screens and markets – powered by our currency-grade measurement on Local & National Linear TV, Digital, Streaming, & Social
2024 Focus

Cross-Platform Adoption
- Accelerating growth of impressions serviced across Proximic and CCR
- Key partner announcements include The Trade Desk & Eyeota

Digital Resilience
- Signal loss & cookie deprecation creating new opportunities
- Digital churn and net dollar retention trending positive

Local Growth & Expansion
- Wins with Nexstar & Tegna
- Cross-platform capabilities a key differentiator

**Predictive Audience Impressions**
- Jan 2024 vs Jan 2023: +69%

**Jan 2024 Impressions vs Jan 2023**: +80%

Jan 2024 avg ARR per client increasing vs Jan 2023

Digital net dollar retention rate improving in Jan 2024 vs Jan 2023

Comprehensive multi-year agreement with Nexstar for cross-platform audience measurement.

Tegna announced an expansion of their agreement with Comscore on 3/1 to include all of their markets.
Built Differently

Granular, local, detailed views of audiences built up from the household level on a foundation of big data, AI, and patent protected data science.

Detail Matters

Only Comscore starts audience measurement at the local level, delivering insights with the speed and accuracy needed to optimize in-flight campaigns.
Local Expansion

“Comscore’s ability to provide us with total audience measurement metrics across our local television stations and websites, NewsNation, The CW Network, and The Hill, enables our cross-platform sales team to leverage our unique scale and reach to customize bespoke advertising and marketing solutions for our clients.”

Michael Biard
PRESIDENT AND CHIEF OPERATING OFFICER
Nexstar Media Group, Inc.

“Expanding our partnership with Comscore will offer us deeper insights through digital and qualitative data, enriching cross-platform solutions for our valued advertising partners. We look forward to partnering with our clients to deliver their targeted audiences across any platform with precision and effectiveness to grow their business.”

Lynn Beall
EVP AND CHIEF OPERATING OFFICER, MEDIA OPERATIONS
TEGNA Inc.

Winning in Local by Delivering Cross-Platform Value
Comscore is built for the future of programmatic, cross-platform media.

- 181M Desktop Screens
- 246M Phones/Tablets
- 158M Connected TV Screens
- 75M+ TV Screens

- Completion of restructuring plan
- Disciplined product innovation
- Investment to drive revenue growth
Thank you
Use Of Non-GAAP Financial Measures

To provide investors with additional information regarding our financial results, we are disclosing adjusted EBITDA, adjusted EBITDA margin and FX adjusted EBITDA, which are non-GAAP financial measures used by our management to understand and evaluate our core operating performance and trends. We believe that these measures provide useful information to investors and others in understanding and evaluating our operating results, as they permit our investors to view our core business performance using the same metrics that management uses to evaluate our performance. Nevertheless, our use of these measures has limitations as an analytical tool, and investors should not consider these measures in isolation or as a substitute for analysis of our results as reported under GAAP. Instead, you should consider these measures alongside GAAP-based financial performance measures, net income (loss), net income (loss) margin, various cash flow metrics, and our other GAAP financial results. Set forth below are reconciliations of these non-GAAP measures to their most directly comparable GAAP financial measures, net income (loss) and net income (loss) margin. These reconciliations should be carefully evaluated.

We do not provide GAAP net income (loss) and net income (loss) margin on a forward-looking basis because we are unable to predict with reasonable certainty our future stock-based compensation expense, fair value adjustments, variable interest expense, litigation and restructuring expense, and any unusual gains or losses without unreasonable effort. These items are uncertain, depend on various factors, and could be material to results computed in accordance with GAAP. For this reason, we are unable without unreasonable effort to provide a reconciliation of adjusted EBITDA or adjusted EBITDA margin to the most directly comparable GAAP measures, GAAP net income (loss) and net income (loss) margin, on a forward-looking basis.
## 2023 Adjusted EBITDA Reconciliation

### Reconciliation of Non-GAAP Financial Measures

The following table presents a reconciliation of GAAP net loss and net loss margin to non-GAAP adjusted EBITDA, adjusted EBITDA margin and non-GAAP FX adjusted EBITDA for each of the periods identified:

(1) Transformation costs represent expenses incurred prior to formal launch of identified strategic projects with anticipated long-term benefits to the company. These costs generally relate to third-party consulting and non-capitalizable technology costs tied directly to the identified projects. We added transformation costs as an adjustment in 2023 for greater transparency around these costs and have applied the adjustment to prior periods for comparability.

(2) Adjustments to other (income) expense, net reflect non-cash changes in the fair value of warrants liability, financing derivatives, and interest make-whole derivative included in other income (expense), net on our Consolidated Statements of Operations and Comprehensive Loss.

(5) Net loss margin is calculated by dividing net loss by revenues reported on our Consolidated Statements of Operations and Comprehensive Loss for the applicable period.

(6) Adjusted EBITDA margin is calculated by dividing adjusted EBITDA by revenues reported on our Consolidated Statements of Operations and Comprehensive Loss for the applicable period.
## Fourth Quarter Adjusted EBITDA Reconciliation

### Reconciliation of Non-GAAP Financial Measures

</tbody>
</table>

---

(1) Transformation costs represent expenses incurred prior to formal launch of identified strategic projects with anticipated long-term benefits to the company. These costs generally relate to third-party consulting and non-optimizable technology costs tied directly to the identified projects. We added transformation costs as an adjustment in 2022 for greater transparency around these costs. There were no transformation costs in the three months ended December 31, 2021.

(2) Adjustments to other expense (income), net reflect non-cash changes in the fair value of warrant liability included in other expense income, net on our Consolidated Statements of Operations and Comprehensive Income.

(3) Net (loss) income margin is calculated by dividing net (loss) income by revenues reported on our Consolidated Statements of Operations and Comprehensive (Loss) Income for the applicable period.

(4) Adjusted EBITDA margin is calculated by dividing adjusted EBITDA by revenues reported on our Consolidated Statements of Operations and Comprehensive (Loss) Income for the applicable period.
