Determination of Criteria for 2015 Named Executive Officer Incentive Plan

Also on February 11, 2015, after review of the compensation of certain of the named executive officers of the Company, and with input from Compensia, its outside compensation consultant, the Committee approved the following target awards for the Company's 2015 Named Executive Officer Incentive Plan. The Committee has established STI and LTI stock- and RSU-based performance awards to be earned based on Company- and individual-performance targets. The Company-performance targets relate to revenue and adjusted EBITDA¹ goals.

Name and Principal Position	Value of STI Performance-Based Stock Bonus at Time of Grant	Value of LTI Performance-Based RSU Bonus at Time of Grant	Value of Long-Term RSU Bonus at Time of Grant

Shares to be issued with respect to amounts earned with respect to STI awards shall be fully vested on the date of issuance, which is expected in early 2016 when the Committee evaluates the named executive officers performance under the plan. One-third of the number of shares subject to each of the LTI awards and Long-Term RSU awards shall be fully vested on the date of issuance, and one-third of the number of shares subject to each the LTI and Long-Term RSU awards shall vest annually on the anniversary of the award thereafter, subject to continued employment of the executive through each vesting date.

The STI and LTI performance-based awards are also subject to the following terms:

- Once the Committee determines the value of an award has been achieved, the executive will become eligible to earn the number of shares for the STI award and RSUs for the LTI award determined by dividing the amount by the closing price of the Company's common stock as reported on the NASDAQ Global Select Market on the date of determination.
- Executives must remain employed through the date that the Committee makes its determination in order to earn the awards.
- The Committee, in its sole discretion, has the right to amend, supplement, supersede or cancel the bonus program for any reason, and has reserved the right to determine whether and when to pay out any awards, regardless of actual achievement of the performance targets.
- In the event of a "change of control" of the Company prior to the date the Committee is able to determine the extent to which goals have been achieved, the performance-based criteria will be deemed to be achieved at target levels with vesting to occur over the period described above.

¹ Adjusted EBITDA is a financial metric not calculated in accordance with U.S. generally accepted accounting principles ("GAAP"). For further description of how the Company defines Adjusted EBITDA, the limitations of its use, and a reconciliation to the most directly-comparable GAAP-based financial metric, see the Company's Quarterly Report on Form 10-Q for the period ended September 30, 2014.

Quantitative and Qualitative Factors for STI and LTI Awards

Under the 2015 Named Executive Officer Incentive Compensation Policy, the 2015 STI and LTI award levels established for our named executive officers are based on a weighted mix of quantitative, including Adjusted EBITDA and qualitative factors, including the satisfactory completion of specific projects or initiatives. The quantitative milestones are based on the expected financial performance of the Company during the year ended December 31, 2015. The revenue and Adjusted EBITDA targets are consistent with the guided ranges in the Company's February 12, 2015 earnings release. The Committee revised the weighting of the target levels based on its experience as well as Compensia's input. The 2015 weighting and criteria for the Company's current named executive officers are determined as follows:
